SYCAMORE LAND TRUST

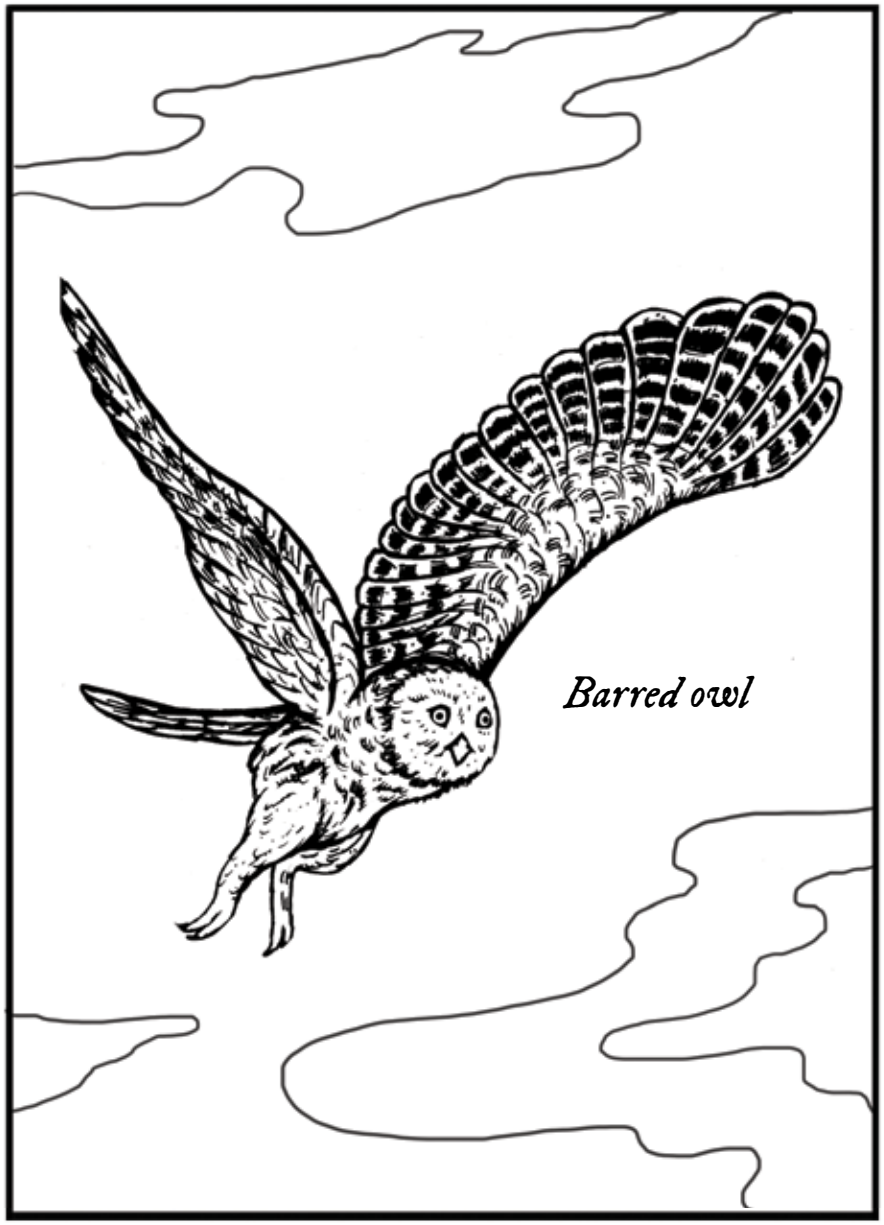
American bittern

Wetlands
of Southern Indiana

Illustrated by Mary Connors,
B.S. K-12 Education, M.A. Art Education

Wetlands are among the most biodiverse and productive ecosystems in the world, comparable to rain forests and coral reefs. The plants and animals in this coloring book rely on wetland habitat protected by Sycamore Land Trust in southern Indiana.



Sycamore Land Trust is a membership-based nonprofit that protects over 10,000 acres in southern Indiana, restores habitat to preserve biodiversity, and connects people to nature through free environmental education programs and 30+ miles of public trails.
