Sycamore Land Trust

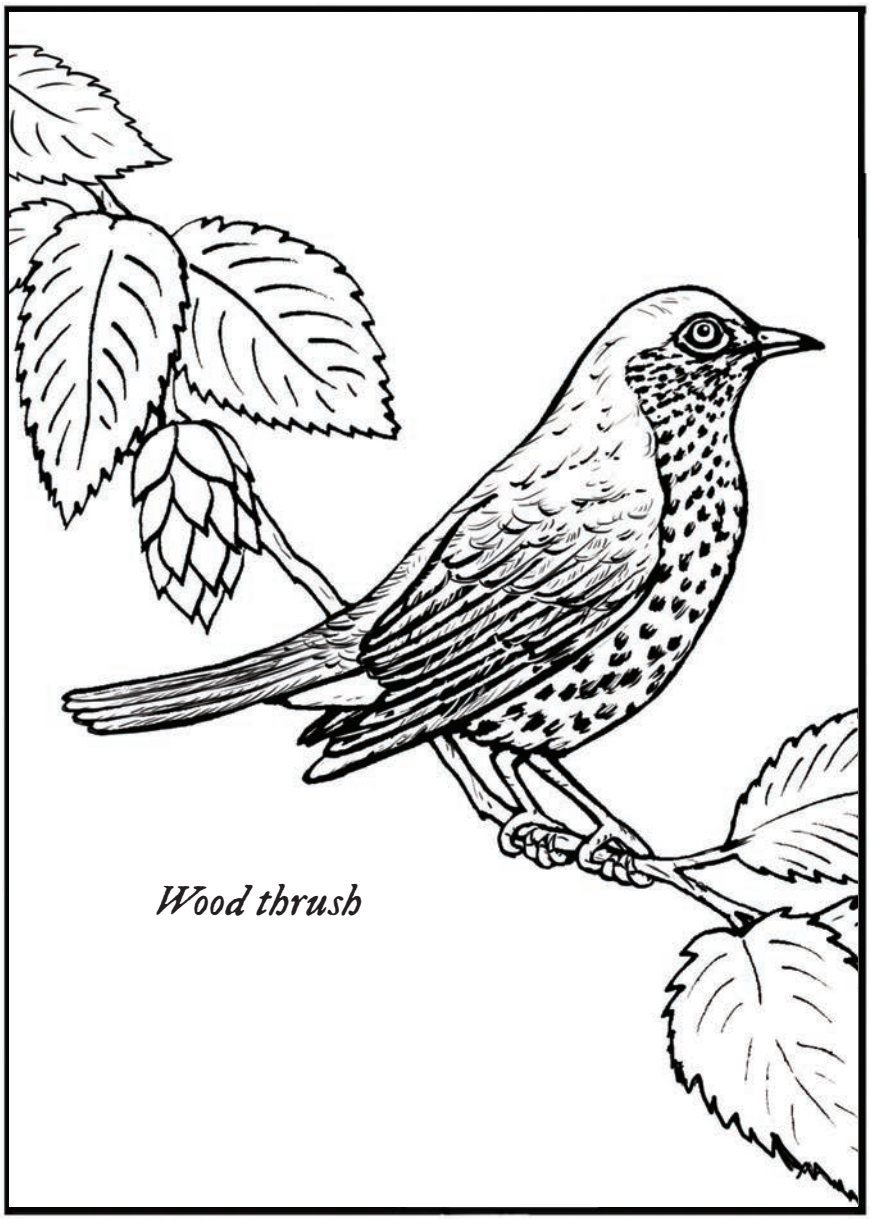
Northern flicker

Birds
of Southern Indiana

Illustrated by Mary Connors,
B.S. K-12 Education, M.A. Art Education

Sycamore Land Trust protects vital habitat for birds. At birding hotspots like our Eagle Slough Natural Area near Evansville, over 240 bird species have been recorded by birdwatchers at eBird.org. As you walk our trails, use eBird's Merlin app to listen for bird calls and see how many birds you can spot!



Sycamore Land Trust is a membership-based 501(c)(3) nonprofit that protects over 11,700 acres in southern Indiana, restores habitats to preserve biodiversity, and connects people to nature through free environmental education programs and over 30 miles of public hiking trails.
