Thank You

Every accomplishment shared in this report was made possible through the generosity of thousands of donors, volunteers, partners, and advocates who believe in our mission.

While space doesn't allow us to recognize everyone individually, every gift helps protect land, restore habitat, and connect people to nature across southern Indiana.

We are deeply grateful for the trust our supporters place in Sycamore. We remain committed to honoring that trust through responsible financial stewardship and accreditation by the Land Trust Accreditation Commission. Accreditation demonstrates that Sycamore meets the highest national standards for ethical conduct, sound financial management, responsible governance, and lasting land stewardship.

Our newly restored wetlands at Sam Shine Foundation Preserve are already providing critical habitat for rare and endangered species. In 2025, the Indiana DNR Division of Fish and Wildlife released 606 state-endangered crawfish frog metamorphs (juveniles) and more than 2,500 tadpoles into the new wetlands through a statewide recovery effort to establish new populations. *Noah Johnson*
